
MSI's Code of Conduct

Global Policy Statement

MSI is a global organisation committed to advancing access to safe abortion, post abortion care and contraception. We are courageous and push boundaries to achieve this goal, working within the maximum interpretation of local legal frameworks to expand access to sexual and reproductive healthcare products and services.

The Board of Trustees and Executive Leadership set our vision, mission, organisational values, behaviours, and principles. They make global policy statements. MSI uses intercompany communication to disseminate and raise awareness of these global policy statements. Executive Team Members, Country Directors and Senior Managers have a responsibility to ensure the standards are understood, and all alleged breaches are reviewed and investigated in accordance with local disciplinary procedures. Line managers are accountable for ensuring team members comply with the standards outlined within this Code of Conduct. All team members are individually responsible for upholding these standards. The Executive Team reserves the right to update and evolve these global policy statements as required.

MSI's mission, *children by choice not by chance*, is guided by our vision of a world in which every birth is wanted. The vision and mission inform our organisational values and behaviours, and all are appended to this document.
